## Thurston Fall Report

November 2020

### Studio Update

Jim recipient of the Chilean National Merit Ministry Service Award

My granddaughter Sarai, helping me choose some of the videos waiting to be put on the Internet. Which ones will be done first?

On October 28, 2020, Pastor Mauricio Silva from Colombia, contacted us. He asked, "Do you have a video of Pastor Alvares giving a message called *Passion con Dios (Passion of God)*?" "He is a pastor from Panama and was preaching in Chile around 1992. If you still have a copy, I want one." A video over twenty-eight years ago, who remembers messages that long a go? Well he did. It must have marked his life just as some messages do.

I went down to my files, looked up the name, and sure enough there it was. History comes to light again. I am sure there are many more people who want to see these old historic messages. You may remember that I was one of the pioneers in Christian TV starting in 1976. What I have in my files no one else does. One thing about messages, they are never obsolete. God's word is eternal. This one will probably be one of the first videos we re-edit when our computer system is finished.

Our editing room

The machine we are building is 95% finished and the setup will allow us to professionally make videos available through the internet. This computer system has been long in the making as in the building stage we uncovered many computer programs that did not work correctly at first.

Of course we realize that Satan would like to keep us from moving forward at a faster pace, but the Lord tells us in 1 John 5:4 "I have said these things to you, that in me you may have peace. In the world you will have tribulation. But take heart; I have overcome the world."

### Accounting change

Our office is now in Washington State. Therefore PLEASE note the name change when writing checks for us.

OLD NAME

**Hope Inspire Love** (as of OCTOBER 31, 2020)

NEW NAME

**Hope Inspires Love WA** (as of NOVEMBER 1, 2020)

### How we are affected by COVID-19 in Chile

We praise the Lord as both Sally and I are fine with no virus. We thank the Lord how He is protecting us. The medical situation here has been getting better, but it is a long way from over. Everyone still needs to wear a mask all the time. When you enter a store, if it is open, you step on a door mat with gel, then they take your temperature, and after that they disinfect your hands.

Only last week we were able to get out of the City for the first time since arriving back in Chile. There are still some sections of Santiago under strict restrictions, but in our section they have loosened up a bit. We still need to get police and health permission to visit another city. We can't have church or go to the rest homes, but we continue to pray for them.

### Working together

Alberto Dib

Alberto Dib is a long time friend. Alberto holds a degree in electrical engineering and has graduated from the Word of Life Seminary. Alberto was one of the

founders of Word of Life in Chile. He is an evangelist, an excellent writer, speaker, planner and administrator. His gifting is evangelism and he has seen thousands of young people receive Christ through his ministry. He already has his financial support and fits into our ministry very well.

### Prayer Requests

1. Pray for Chile as they have just abolished the Constitution and will be writing a new one.
2. Both our families need prayer for health needs.

Happy Thanksgiving from our house to yours.

Jim & Sally
